

IMED-EDDINE SAKRAOUI

Mid–Senior Full-Stack Developer (Laravel / React / Flutter / Salesforce)

■ Remote (Worldwide / EMEA) | ■ GMT+1 — Flexible overlap with US timezones

Languages : English | French | Arabic

ie.sakraoui@gmail.com | Portfolio | GitHub | LinkedIn | Google Play Store

PROFESSIONAL SUMMARY

Mid–Senior Full-Stack Developer with 9+ years of professional experience building scalable web and mobile applications using Laravel, React, and Flutter, with strong hands-on experience on Salesforce platforms. Worked on enterprise government systems and US-based SaaS products, covering backend architecture, API design, modern frontends, mobile applications, and Salesforce automation (Apex, Flows, LWC). Comfortable working in fully remote Agile environments with a strong focus on code quality, testing, and long-term maintainability.

CORE TECHNICAL SKILLS

Backend & APIs: PHP, Laravel, RESTful APIs

Databases: MySQL, PostgreSQL

Frontend: React.js, JavaScript (ES6+), TypeScript, Vue.js

Mobile: Flutter, Dart

Cloud & Data: Firebase, Cloud Firestore, Microsoft Dataverse

CRM / Enterprise: Salesforce (Apex, SOQL, Flows, LWC, Visualforce)

Testing & Quality: Unit Tests, Widget Tests, Automated Tests (Gherkin)

Tools & DevOps: Git, Azure DevOps, CI/CD, Linux, Nginx

Methodologies: Agile / Scrum

CERTIFICATIONS

Salesforce Certified Platform Developer I

Salesforce Certified Administrator

EDUCATION

Master's Degree in Computer Science

National High School of Computer Science (ESI), Algiers, Algeria

2010 – 2015

PROFESSIONAL EXPERIENCE

Salesforce Administrator / Developer — LEVIO (Remote, Canada)

January 2024 – May 2025

- Developed custom Apex classes and business logic supporting complex enterprise workflows
- Designed and implemented Salesforce Flows (Screen & Record-Triggered) to automate business processes and reduce trigger usage
- Built and maintained Lightning Web Components and Visualforce pages for internal users
- Ensured data quality, performance optimization, and adherence to Salesforce best practices
- Performed testing, debugging, and deployments using Git
- Collaborated closely with stakeholders to deliver scalable Salesforce solutions

Senior Flutter Developer — Rent Ready (Remote, USA)

June 2022 – December 2023

- Designed, developed, and maintained a production-grade Flutter mobile application used by professional property managers
- Implemented real-time data synchronization between Microsoft Dataverse and Firebase across multiple devices
- Collaborated with Product Owners, Scrum Masters, and UI/UX designers in an Agile/Scrum environment
- Built a custom reusable widget library improving UI consistency and development speed
- Implemented unit tests, widget tests, and automated test scenarios using Gherkin and Firebase Test Lab
- Conducted regular code reviews and enforced clean architecture practices

Software & Organization Engineer — National Pension Fund (CNR)

June 2017 – May 2022

- Designed and developed large-scale enterprise web applications using Laravel and React
- Built RESTful APIs consumed by Flutter mobile applications used by field controllers
- Developed resource management and attendance systems deployed across departments
- Designed and optimized MySQL and PostgreSQL databases for high-volume usage
- Developed data extraction and web scraping tools using Python
- Integrated multiple systems using Talend Open Studio

Software Engineer — National Employment Agency (ANEM)

January 2016 – May 2017

- Developed Android applications using Java and Kotlin
- Built backend services and Web APIs supporting mobile and web clients
- Developed PHP/MySQL web applications and enterprise SharePoint solutions
